Natchez. Aug. 3. 1872.

Visit. Brit. Consul Hay's wife buried. Chapel fill'd. Attended there. Mr Hay show'd feeling.

Mr Lloyd tells me he must have read with nephew in Bible. He said God had done it; Shakes knife of his wife, had gave too much trouble with him — tickled him when ill — now gone.

With Mr Lloyd have happy Xn. fellowship.

Reuben Vaughan R. C. getting Mrs to print Span. Bible Scio, with Douay notes translated. I subscribe $ 300 and

gave him Cheque for it.

A. Balfour	90.–
S. Williamson	90.–
W. B. & Co	100.–
Self	20.–

Cond^n. insisted to have
copies at cost price for
Acad^y. V. will send me
list of subscribers, and
Casanova's Letter & him
on subject.

To day sent Letter to David
with 50.£; thus Balfour 250.–
for Shiny; Am. Fr. Soc. 20.–
for Plates. Copyright value
196.£ is a grant to me.

Much anxiety about my debt — have to pay it — 20,000; have besought God to lift it for me in these days more than usual.

He has provided funds for printing Record & Pioneer, so that owe but little.

He has provided means for sending David to U.S. and to College; & then again John. Williamson and Balfour 50 £ a year for David; and Balfour half John's expenses, and Atlantic 200 $ per annum for John.

Sat. evg. prepared for 16/13 — text in what Lhagd told

[illegible] of his ann Commission.
May God give us Spirit
how & now.

Yest. wrote for me Outlook
inscription for Dea. Simpson's
monument.

Walk'd with children
up hill to day — many, Wil-
lie, Stetson, Annie & Julia,
round & Prison & Cemetery.
all enjoy'd it. Better to walk
with them than sit them alone
on Saturdays.

Valpo Aug. 9. 1872.

McCallochs youngest child, 4 mos., died yest. at 11 a.m. Born too early & fear had been felt it might not live, but of late seem'd to thrive. Went with him to Cem. and select a lot - wish where it is "please his wife". Call'd on her, afternoon, - Mrs Lagorio there - after a little took us up stairs to see the little corpse - waxlike - face full, placid. We all knelt in prayer.

Day before

Yest. Sim. visit to Mrs Cattaheira lost 3d child in eleven mos. Sad to comfort her by showing child were living, tho not hers.

It did Comfort her, tho she found it hard to realize and feel. Read 2 Sam. 12th and pray with her: thank me for kindness. Had a Bible given her when 2 years old on leaving England & some friend of family. At funeral on 7th I read Spanish Prayer book service in part; hardly knows what to say on a 3d occas. so desolating.

Last Fri Act. Sch. Com. — only Allardice, Bennett, Self & McKay. Voted to send for new teacher. McQueen & to write Mr Pugh about a passage in Str. & send subsc. Voted McKay leave of abs-

ence for 8 or 9 mos. to get home.
Voted to buy his lot and enclose
it with play ground.

Yest. preparing for Recess — have
removed it to Helfman — dilatory
& faulty fitting of cuts.

Tract Soc. sending me out 20
more cuts — grants 196.$ as value
— artistic — and will have me pay
20.$ for copying them.

Aiman had been 2 years
here — often in tow. — Tobe came &
his lines were given to him — Colleague
broke them & urged that he rec'd at once
& placed on Com. roll, but then de-
nied access to Com'n. Inc. of misconduct
previous, until repentance. Rules
of Ch. men quoted; read, he said he sh'd
act in disregard of them — as the

that rule had no existence. I was appt to see the man — & did — and he profess'd sorrow, distress and new faith and intentions. Was rec'd & new Conf. of Ch — at late meeting. Mrs. Thurston quite satisfied.

Resol.n about Dea. Simpson's decease read & agr'd — was incomplete. Accept'd in part — and I requested to write out & present to meeting on Friday Eg, prepar. lecture; did so — reading before dinner. Coll. 2 mos. later at Ch. meeting spoke long and delib. that I had "designed" both to exclude debate on the resol.n — he did not know that Mrs S. had visit-

such as stated in them; and further presentation of them in midst of div. service was "indecent".

Mc Cullach spoke my cross & rude. but I said nothing. At end of meeting I said, I had thot I was carrying out vote of the Church. It was an error, not to call a Ch. meeting after the lecture ceased; but not to warn the harsh words utd.

If the mems. of Ch. will attend such meetings they will control them.

Chas. Graham Mc Cullach.

Feel what death is only when touches own blood —

family — esp. offspring.
E. Burke's Son died in prime, educated — elected to Comm.; as tree: far. more what had been.
Babe afronting germ, just ab. ground, & withers:
Yet germ of complete humanity; might have been develop'd yet has not: still may be.
Sabb. lit. ch. "recog. this "of such is kgd." of believers.
1. Ch. is sheph'd — takes believing babe not to arrest develop'g; not to cast again into non-exist.e: all live unto him. Takes in arms

2. Not to condemn and destroy: tho organically bound in wrong race, & ch. pers. innocent: God, e.g. all S. will do right.

3. may there not be organic union betw. ch. real believers that secures, with God, their faith before developt into salvation?

4. Takes babe, to unite parents & new bond to unseen beyond — to realm of death, representative in it: to 18th, fruit of his own body there.

(1) Here are motive to resignation
— more extinct ab. all our
unseen — living, transplanted
— hope to meet again.

(2). Such are the hopes in
Christ. He is Shepherd. Now
see need of him — so
need ag. t our death.
Theref. not to bel. in Xt
is self murder — child
murder; Bel. him in
evg thing! that may have
this hope in him.

June 20. 1873. Friday

First real rain of this year set in at 3 p.m. wife & I call^d on Mrs Bryce Allan Millers bride — then on Mrs W^m Cameron home in rain.

McKay tells me a requisition is being signed for a meeting for Monday ev^g to consider about employing D^r Swany here in mission work; and ask^d if I sh^d object. I told him my support was insuffic^t and I did not think I ought to have

the strain. Whether he w^d be the man for this wh. is ano. q^n also — a good preacher but how for seeking out people. Propo^d not to be connected with the Cong^n — to offer him 2000 $ a year for 5 years. I said un less than 3000 he c^d not live — and in the end that w^d be the figure, 4000. $ May the Lord overrule and lead to that wh he can bless.

Question was brot up by Blake at meeting on Tuesday at Mr Ems's salary to Sep. 30 — when Sutherland propo^d to send telegram to D. S. to stay

and came hither to labor. I
overruled & declined putting motion
as so few were there; - adjourned
to Monday eve & give notice. Mc
Culloch said support of cler-
gyman was inadequate. S.
did not know that. I said
it was so - that I had to keep
hotel & make out support.
S. said wd withdraw motion.
Motion to adjourn to Monday
was lost. Indef. adjt. prefer'd.

Mond. June 23. 1873.

Raining hard. McCulloch call^d & Geo. Jenkins. J. said Ch. Blake had brot paper to him to sign for calling meeting — and of Cummings: S^d scheme had been to rush it thro at Tuesd. meeting. Had tho't it troubled me on Sund. & call^d to tell me how friends felt.

Smith. at meeting read a protest ag^st action of chairman in refusing — seems bitter. I had desp^{is}d votes of poor as ag^st Rich. I ans^d only that aim was to prevent hasty action majority absent — not knowing case to come up.

evident G am not feeling with him & may be with others.

I said to discuss his paper in consonance (?) - if Soc. wish'd it it c'd go into archives. No one s'd a word. McC. gave it back to him. Sec's rep't amended to read Chairman had refus'd to put motion & the line of statement by Chairman had withdrawn it. I said I pref'd it sh'd be record'd I had refus'd.

McKay mov'd D. S. be instr & were to work in Mission & clerical labors at 2500 for 3 years. Spoke of need of the communit. Blake seconded & urged good of souls. McC. spoke -

is need — but this not the place — Dr S. not the man — good prch but not further work. Birrell spoke against — do justice to pres. pastor. Not Constitutional for this Soc. to take up missn work. R. Campbell, Sallans, Sauvant spoke — S. urged McKy to withdraw motion. So Dr Thomas: McKy withdrew with Blake's consent.

I closed saying if had spoken hastily askd Mr Sutherland's pardon, but insisted it was my duty to decline putting motion when so few were there; ask meeting seemed to sustain heartily. McLaudica told S. he outside shd have withdrawn his protest as a gentleman — S. was indignant. Sauvey said in his remarks disapprovd of Sutherland's paper.

La Madre! quien puede calcular el influjo de una madre

piadosa que enseña al niño
en la Caridad de Cristo, y
ora diariamente a Dios
por hija. Una bendición
especial tiene la madre; con
dos celestiales tiene un padre
que hace el camino de
la vida ante su hijo y
que dé el ejemplo de amar
en ello!

2. Lo que es importante
es saber que lo hagamos.
Importa mucho reco-
nocer la obligación.
Del reconocer es el hu-
milde; y la fidelidad en
recordarla dará los
benditos frutos en vida
terrena y en vida Eterna.

Surprised to hear 1st thro Iglesias, next by note fm McGill that he thinks we bound to obtain hacienda pintilla because he did not bid up to 2200.$ as was prepared to do.

Leighton, he writes, was bidding for some one on the hill. But it was on McGill's fianza.

More than that McG. bid himself, tho his bid was ruled out for want of fianza. Nowhere as

he had overtook me copy
of H. marks; dated Jan. 7 and
certify'd by Iglesias as sign'd in
his presence.

I told Maddox I should

I do not want the mining
to be blamed, but he
did not adhere to what
I proposed.

Further I told him tho he

not cut the hill, as
it might bring down my
